PROJECTS

Koops Sales 01/2024 - Present

Flutter

- The Koops Sales App is an all-in-one solution for sales executives, managing leads, customers, visits, leaves, orders, sales returns, invoices, and payment collections. It also handles estimates, deals, sales quotations, and activity tracking, streamlining the entire sales cycle.

HOBBIES

- Listening Song
- Gaming
- Cricket

PROJECTS

- The app includes a location dashboard for spatial insights and real-time activity monitoring. Integrated modules like CRM, DMS, and Sales Force Automation enhance operational efficiency. It empowers sales teams with comprehensive tools to optimize customer engagement and sales performance.

Koops Customer 01/2024 - Present

Flutter

- Designed and developed a user-friendly mobile application for customers to manage orders, view product catalogs, and access service-related features. The app was part of a broader CRM and DMS system.

Crew Lost and Found (Freelancing Project) 11/2024 - 12/2024

Flutter

- Flutter-based social networking app for users in Austria, Monaco, and Florida. The app features location-based maps, user profiles, event discovery, chat, and community creation to connect boating enthusiasts. It enables users to find, invite, and interact with friends based on hobbies and interests.

Bowl Chance (Freelancing Project) 04/2025 - 05/2025

Flutter

- Boul Chance is a sports betting app offering live updates for football, tennis, hockey, and more. Users can place bets on specific odds, manage multiple bets simultaneously, and track bet history. The app features live score updates, wallet management, and transaction histories for deposits and withdrawals. Users can create and customize their profiles for a personalized experience. It provides a seamless platform for sports enthusiasts to engage and wager on their favorite matches.

Bowl Chance Admin (Freelancing Project) 04/2025 - 05/2025

Flutter

- The Boul Chance admin panel allows administrators to create and manage matches, set odds, and organize leagues. It includes finance management features such as approving or rejecting payment requests, managing transactions, and filtering financial activities. The panel provides comprehensive control over match setups, odds adjustments, and user transactions to ensure smooth platform operation.
